

## Top designer for Rosebank development

**I**panema is a new residential apartment development that effortlessly complements the newfound appeal of Rosebank in northern Johannesburg.

The show units were furnished by Yvonne O'Brien Interior Design at The Private House Company. "We were influenced by the colour of the walls and the finishes of the apartment, and therefore chose a very simple palette of shades of

greys and off-white," said O'Brien. "It is a light, contemporary look that will appeal to all ages. Furnished using the space to its maximum, the apartment is stylish and comfortable."

Ipanema is aimed at young professionals and young families looking for a prestigious yet affordable urban lifestyle, which provides the convenience of lock-up-and-go, coupled with elements

such as an on-site gym, laundry service, communal pool and outdoor entertainment area. The one- and two-bedroom apartments and two-bedroom pent-houses with rooftop terraces all showcase clean architectural lines with the highest quality interior finishes.
